PROFESSIONAL SUMMARY

From **raw code to pixel-perfect designs**, I specialize in building **fast, responsive, and engaging web applications** that bring ideas to life. With expertise in **HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, Bootstrap 5, PugJS, jQuery, and GulpJS**, I create sleek, high-performance interfaces that captivate users and enhance functionality. I thrive in **fast-paced, collaborative environments**, ensuring that every line of code contributes to an **elegant, scalable, and user-friendly experience**. Let's build the future of web together!

EDUCATION

Faculty of Engineering, Mansoura University

Department of Computer and Control System Engineering (CSE)

2022 – 2027 | Egypt

- Focus on programming fundamentals, control systems, and teamwork to solve real-world engineering challenges.
-

TECHNICAL SKILLS

- **Front-End Development:** HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, Bootstrap 5, PugJS, jQuery, GulpJS
 - **Back-End Development:** C#, ADO.NET, Entity Framework, SQL Server, LINQ, ASP.NET MVC
 - **Software Development Principles:** Object-Oriented Programming (OOP), SOLID Principles, Data Structures, Algorithms
 - **Other Tools & Technologies:** REST APIs, JSON, Git, GitHub, AI-Powered Development, Web Performance Optimization
-

PROFESSIONAL EXPERIENCE

Full Stack .NET Developer | Digital Egypt Pioneers Initiative - DEPI (Trainee)

Oct 2024 – Present | Egypt

- Developed dynamic web applications using .NET Core, ADO.NET, and modern front-end frameworks.
- Optimized database operations, ensuring efficient data retrieval and manipulation.
- Collaborated with teams to deliver client-focused solutions through freelancing projects.
- Implemented AI-driven problem-solving techniques and prompt engineering.

Front-End Developer | ALX Africa (Trainee)

Jan 2025 – Present | Remote

- Created responsive, interactive web applications using React.js and modern UI frameworks.
 - Focused on performance optimization and cross-browser compatibility.
 - Engaged in teamwork, leadership, and agile development methodologies.
-

PROJECTS

Techvio - IT Solutions Platform [Demo](#) | [Github](#)

- **Front-End:** PugJS, SCSS, TypeScript, jQuery, Bootstrap 5, GulpJS
- Built a multi-page platform providing seamless IT solutions with dynamic functionalities.
- Developed 23 fully responsive pages, integrating advanced libraries such as Isotope, Owl Carousel, Swiper, Particles.js, and WOW.js.
- Ensured clean, maintainable code with optimized performance.

Dynamic Web Dashboard [Demo](#) | [Github](#)

- **Front-End:** HTML5, SCSS, JavaScript, Bootstrap 5
- Developed a visually engaging and fully responsive web dashboard.
- Integrated smooth animations, dark mode, and real-time UI updates for an enhanced user experience.

SaaSpal - SaaS Web Application [Demo](#) | [Github](#)

- **Front-End:** PugJS, SCSS, TypeScript, Bootstrap 5, GulpJS
- Developed a high-performance SaaS platform with a responsive UI/UX.
- Implemented smooth animations and seamless navigation for an engaging user experience.
